

# The Perspectives on Political Culture in History through the lens of philosophy.

- **Author(s):** Ong Van Nam
- **Abstract:** Political culture is a mode of community orientation, formed and applied in political practice in the history of East - West. The prominent cultural and cultural ideas of Confucius, Han Fei, Plato, Aristotle have had far-reaching influences throughout history and to a certain extent, are still valuable today. In the context of increasingly diversified, rich and complex development of human life, political culture is always researched, supplemented and perfected with the great ideas of Machiavelli, Locke, Montesquieu, Rousseau, Marx - Lenin, Almond and Verba and other political scholars around the world and in Vietnam. These historical studies aim to build a theoretical framework of traditional culture associated with the current context, as a basis for paving the way for the ethnic development process.
- **Keywords:** Political culture, community orientation, philosophy
