

Role of Small and Medium Enterprises on Reducing the Problem of Unemployment among Iraqi Youth.

- **Author(s):** Hala Abdul-Ilah Habib ,Tameem Muhammad Salloum
- **Abstract:** Iraq suffers from high unemployment, combined with several indicators including unemployment among youth and scientific qualifications, small and medium enterprises is one of the most important mechanisms that contribute to a large proportion of employment and reduction of unemployment, due to its flexibility in employment in the business community, as well as its role in national development and their dependence on individual initiatives. And notes on Iraq is that those projects are still far from its leading role and purpose of existence, because there are multiple constraints.
- **Keywords:** Unemployment, small and medium enterprises, Iraq
