

# Some Changes in The Folk Belief Life of The Vietnamese People: Awareness and Education.

- **Author(s):** Nguyen Huu Tho
- **Abstract:** Vietnam is a religiously diverse nation. Vietnamese culture and religious practises date back hundreds of years. A variety of beliefs are linked with economic and spiritual well-being among the many ethnic groups in the Vietnamese community. Vietnamese people's spiritual lives are heavily influenced by their religious beliefs. This research indicates that there are many beliefs in Vietnam. These are beliefs created by people in their own lives. Through the process of existence and development, these beliefs have become an integral part of the spiritual life of the Vietnamese people. Based on the analysis and evaluation of belief activities, the study shows changes in the current religious activities in Vietnam.
